## PROJECTS

**Portfolio website** | Designed and built entirely by me using ReactJS and CSS3.

I Need to Save | I coded pagination and table sorting with vanilla JavaScript, as well as using some libraries like ChartsJS. Code

**Network** | For this project I built the backend and frontend from scratch using Django and JavaScript.

**Mail** | Gmail-like web application. In this app I've created a single page web application with vanilla JavaScript.

**Commerce** | Ebay-like web application. This project was mainly focused on Django and its ORM.

**Wiki** | Wikipedia-like web application. This was the first project that I've made with Django.
